TWELFTH REPORT

OF THE

GENERAL PRISONS BOARD, IRELAND.

TO HIS EXCELLENCY LAWRENCE DUNDAS,
EARL OF ZETLAND,

LORD LIEUTENANT GENERAL AND GENERAL GOVERNOR OF IRELAND.

General Prisons Board, Dublin Castle,
August, 1890.

MAY IT PLEASE YOUR EXCELLENCY :

1. Pursuant to statute, we, the General Prisons Board, have the honour to present this our Twelfth Annual Report on the condition of the Prisons and Prisoners within our jurisdiction, and in respect to the Registration of Habitual Criminals during the year ended 31st March, 1890.

40 & 41 Vic.,
cap. 49, sec. 15.

I.—LOCAL PRISONS.

2. During the past financial year we have not been able to continue any further the process we have pursued since the year 1878, of closing by degrees such of our Prisons and Bridewells as were no longer required.

Reduction of
Local Prisons.

3. As explained in our last two Reports this process has in our opinion been carried as far as is advisable for the present. So that our Local Prisons now consist of 20 larger and 6 minor Prisons. The portion of Mountjoy Prison used for Local Prisoners is included in this number, as it now takes the place of Richmond Bridewell, which has been closed as announced in our Report of last year.

4. As may be seen on reference to the Tables I. and XXIV. in the Appendix, the numbers both of Convicts and Local Prisoners are fortunately still on the decline, and were, on the 1st of January last, only 2,304 Locals and 454 Convicts. Having regard, therefore, to these numbers, the proposal to build a new Public Works Prison has become impracticable, for with only about 400 male Convicts it would be impossible to undertake the construction of such a work, as when probationers, invalids, tailors, shoemakers, cleaners, and men required for general repairs, bakery, &c., are deducted, there would be hardly 100 hands available for the construction of such a building, and at the present rate of the decline of the number of Convicts, by

Reduction of
Number of
Prisoners.

Proposed
Public Works
Prison.

the time the buildings were complete there would be but a very small number available to inhabit it. Under these circumstances the Board are obliged to find building and other outdoor work for Convicts at Mountjoy, particulars concerning which will be given later in this Report.

5. But although we do not see our way at present to close any of the existing Local Prisons, we have determined on removing long-sentenced Prisoners from some of the smaller Gaols where the cellular accommodation provided does not come up to the approved dimensions, as is the case in Sligo, Castlebar, and Londonderry. We have also in contemplation the enlargement of Belfast Prison, and are at present in treaty as to the purchase of ground adjoining that Prison for this purpose.

6. We have also submitted to Government proposals for the concentration of female Prisoners whose sentences exceed six months.

7. We have determined to enlarge and improve some of the smaller cells in Grangegorman Prison, which will then be suitable for the few remaining female Convicts, now reduced to 28.

8. We have further at present in progress, in some of the Local Prisons, the enlargement of a certain number of cells and improvement of the ventilation of others where such has been found necessary, in cases referred to later in this Report.

Reduction of
Annual
Expenditure.

9. In our Report of last year, para. 3, it was shown that the cost of the maintenance of our Prisons then was 30 per cent. less than when the Prisons were handed over to the Prisons Board in 1878. This reduction in our expenditure still progresses.

10. When the Board took over the management of the Prisons the annual cost of the Convict Prisons was £42,024, while last year it was only £21,621. In like manner the Board have effected a saving of £19,832 in the annual cost of the Local Prisons, making a total yearly saving of £41,453 on both establishments, and although we have effected this considerable saving, we have during the last ten years expended no less than £36,733 in the construction and improvements of the Prison buildings and in sanitary works, which we found to be imperatively called for.

11. The number of the officers has, of course, been reduced, while the pay and emoluments of those at present in the service have been considerably increased. The bedding and clothing of the prisoners have been much improved, and their dietary also, both in quantity and quality, so that had it not been for these very large additional outlays we should be able to show a much larger reduction on our total expenditure during the period named. Now that so much has been completed in regard to these important matters, it is to be hoped that in future years the expenditure will diminish still further, but in view of some buildings and further structural improvements of some of our prisons, we do not expect to effect much more in this direction for a couple of years.

12. In our last Report we referred to the new rules as regards New Rules. the wearing of prison dress, as to exercise and hair-cutting. These rules, dated March, 1889, have been in force since that date, and are carefully adhered to. During the past year 105 prisoners have availed themselves of the provisions in the Amended Rule No. 28, and have been allowed to wear their own clothes in prison. The greater number of these were, however, committed under the Criminal Law and Procedure Act in the counties of Tipperary, Clare, and Cork. On the 31st of last March there were but two prisoners in custody wearing their own clothes.

13. There have also been in custody during the past year twenty-two male prisoners who have claimed to be exempt from Prisoners exempted from labour. prison work on the payment of the cost of their food as provided by the 16th sec., 19 & 20 Vic., cap. 68. Only two of these, however, were in custody on the 31st of last March.

14. As regards the objections of a certain class of prisoners, to Prison dress. wearing the prison dress, experience has taught us that this is to a great extent a sentimental grievance, and that to the great majority of prisoners the prison dress is a decided benefit, and is so looked on by them. To the prisoners of the humbler class whose own clothes are frequently both filthy and tattered, the prison dress is obviously a boon, while as a rule the better and more thrifty class of prisoners prefer the prison garb in order to save their own clothes whilst undergoing their sentences.

15. In May, 1889, as your Excellency is no doubt aware, a Committee, over which Lord Aberdare presided, was appointed by Government "to inquire as to the rules concerning the wearing of prison dress, &c." The minutes, evidence, and proceedings of this Committee were subsequently presented to both Houses of Parliament, so that it is unnecessary further to refer to their proceedings beyond quoting the summing up of the Committee on the general question:—

"It (prison dress) is now accepted without hesitation or repugnance by the great body of prisoners in England and Scotland, and Ireland, and recognized as a component part of the system, not as in itself a punishment nor as intended to inflict a stigma or convey a sense of degradation. By a large portion of the ordinary convicted prisoners prison dress is looked upon as a right, carrying with it distinct advantages. Thus the prison dress saves private clothes from wear and tear during confinement; it is more suitable and convenient for prison labour, which in many cases is injurious to clothing; and it permits its wearer to be employed occasionally beyond his cell, in trades and offices which are highly prized by prisoners, an indulgence which could not safely be extended to prisoners wearing their own clothes.

"Such, briefly summarized, are the arguments urged in favour of the prison dress by the official witnesses. With one exception they were unanimous in stating that in England and Scotland no objection to wearing the prison dress, much less any resistance to it, had ever been offered by prisoners of any class or description during an experience extending over twenty and, in some cases, thirty years. In Ireland, with

Prison dress.

the exception of prisoners under the Crimes Act, and a few committed to Belfast Gaol for trivial offences, a like acquiescence was asserted to have prevailed. It was even affirmed that no repugnance to the dress had been felt, or at least visibly manifested, by the prisoners English, Scotch, or Irish. In confirmation of this view it was stated, and is beyond doubt, that many unconvicted prisoners, awaiting trial, ask to be allowed to wear the prison dress, either for the purpose of saving their own, or because it is warmer and more comfortable than their own ragged attire. It should, however, be stated that the dress worn by the prisoners awaiting trial differs from that worn by convicted prisoners.

"This general acquiescence in the wearing of the prison dress is doubtless due to its being accepted as a necessary incident to imprisonment. That an outward acquiescence, however, should not frequently be accompanied by a repugnance to the dress as humiliating and degrading, and tending to confound those guilty of slight offences with habitual criminals, can hardly be doubted. Whatever may have been its origin and intent, this dress has too long been associated with all that is vile and shameful to be assumed by the lesser offenders without a sense of degradation and a shock to self-respect which should never be unnecessarily inflicted. This feeling was energetically expressed by a witness who represented those who had been imprisoned for a refusal to have their children vaccinated. Its occasional prevalence among Ulster peasants, imprisoned for having been drunk or for other comparatively slight offences, was also shown to exist by the former governor of a prison at Belfast. The number of minor offences punishable by imprisonment in default of payment of fines is so great, and has been so much increased by modern legislation in connexion with health, education, highways, &c., that it cannot be doubted that many prisoners of this character are exposed to a painful trial in being forced to put on the prison dress. 'I am told by my officers,' said the governor of Wandsworth Prison, 'that occasionally men seem surprised that they should be required to wear prison dress; but they do not make any further protest when they find it is the rule.'

"The present practice in England as to prison dress rests on the Prisons Act, 1865, which proscribes that—

"'A convicted prisoner shall be provided with a complete prison dress, and shall be required to wear it.'

"We are advised that this rule can only be altered by Act of Parliament; no dispensing power, and no power to alter the rule, being vested in the Secretary of State or in any other authority.

"In Scotland the practice rests upon a rule made by the Secretary for Scotland, and laid before Parliament in terms of the Prisons (Scotland) Act, 1877, and Secretary for Scotland Acts, 1885 and 1887. That rule is as follows:—

"'346. A convicted criminal prisoner shall be provided with a prison dress and shall be required to wear it.'

"This rule may be repealed or altered by the Secretary for Scotland in terms of these Acts.

"In Ireland also the case is different from that of England, and, acting under the powers conferred on them by the Act 40 & 41 Vict., c. 49, the General Prisons Board have recently, March 27, 1889, passed the following regulations, which, having lain before Parliament for 40 days, are now in force.

BY THE GENERAL PRISONS BOARD FOR IRELAND.

Prison dress.

"In pursuance of the General Prisons (Ireland) Act, 1877, the General Prisons Board for Ireland do hereby repeal General Rules 28, 35, 36, and 41, made on the 22nd day of March 1878, and make the following General Rules in substitution thereof:—

"28. A convicted criminal prisoner shall be provided with a complete prison dress, and shall be required to wear it, unless the General Prisons Board shall, by order in writing, otherwise direct, on the grounds that the wearing of such dress is not necessary for the purposes of health or personal cleanliness.

"35. Each male prisoner shall have his beard clipped, or be shaved at least once a week, unless specially exempted by the governor or surgeon, on the grounds that the same is not necessary for the purposes of health or personal cleanliness.

"36. The hair of a female prisoner shall not be cut without her consent, except on account of vermin or dirt, or when the surgeon deems it requisite on the ground of health, and if the hair of male criminal prisoners be cut, it shall not be cut closer than may be necessary for the purposes of health and cleanliness.

"44. Criminal prisoners, if employed at work in their own cells, shall be permitted to take such exercise in the open air as the surgeon may deem necessary for their health. Such exercise to be taken at such times and places and subject to such conditions as the governor or surgeon may direct.

"Made and executed this 27th day of March, 1889, by 'The General Prisons Board for Ireland.'

"REFUSALS TO ADOPT PRISON DRESS.

"We are requested to advise as to whether any, and if any, what alterations it is desirable to make in the existing rules by which obedience to the prison regulations (as to dress) is enforced. We have been unable to ascertain that any specific rules for dealing with this form of disobedience have been devised. Each case appears to have been dealt with according to its special circumstances, and we are unable to suggest any regulations on the subject.

"A. NEEDARE.

"DUCIE.

"W. H. WYATT.

"C. F. BOURKE.

"W. J. STOPFORD.

"A. BEATSON BELL.

"C. E. THORNHILL.

"To the Right Hon. A. J. Balfour, M.P.,
Chief Secretary for Ireland."

16. The number of local prisoners who were punished for prison offences during the past year will be found in the Appendix, Table No. XIII., together with the number of prisoners who passed through their imprisonment without any punishment

Prison
Punishments.

for the breach of rules. It is satisfactory to observe from those returns that only 11·3 per cent. of the total number imprisoned had been punished for prison offences. These results, as compared with those of the old system, are to be attributed very much to the improvement in discipline and the uniformity of treatment throughout our prisons; also to the gratuities that well-conducted prisoners can now earn in the local as well as the convict prisons. When one considers that more than one-third of these prisoners are wholly illiterate, the above results must be deemed satisfactory.

Education

17. Particulars relating to the education of the local prisoners will be found in Tables VI. and VII. of the Appendix, but those confined for very short periods in minor prisons are not under the rules entitled to literary instruction. The number of wholly illiterate amongst the prisoners committed to the local prisons during the past year was 13,656 out of a total of 38,345, or about 35·6 per cent. of the total number committed. So long as there is so large a per-centago of wholly illiterate in the country, as unfortunately is the case at present, it is difficult to expect an improvement in this respect amongst the criminal classes. At the last Census, in 1881, the proportion of illiterate amongst the general population of Ireland over five years of age was as much as 25·2, or about one individual in every four.

18. We find that in England and Wales the per-centago of the illiterate amongst persons committed to local prisons is only 25 per cent.

19. We have in previous Reports pointed out the great difficulty that there is in imparting instruction to the vast majority of our local prisoners, by reason of the short sentences under which they are committed; for it is obvious that there can be no possibility of imparting knowledge, even of the most elementary kind, to a prisoner committed only for a few days or hours.

20. The increased allowances granted to the School Teachers in 1887 has resulted in somewhat more time and attention being devoted to this very important subject, but in most of the Prisons the Chaplains take little or no interest in the secular instruction of their flocks. However, when these gentlemen do interest themselves in this matter, there is satisfactory evidence of progress.

21. In several instances prisoners who came into Prison wholly illiterate have been taught to read and write fairly well. At Tullamore Prison the Protestant Chaplain gives instances in his journal of marked improvement in the case of some of the Prisoners there, in whose instruction he has taken much interest, and we feel sure that if other Chaplains were 'o follow his example, the results would be much more to the advantage of the prisoners than they are now. Mr. Inspector Joyce also reports instances of some prisoners, wholly illiterate on commitment, having been taught to read and write while in Galway

Gaol, and that fair progress is made in this school. The Governor of this Prison is careful to superintend the secular instruction of the prisoners with very beneficial results.

22. We have also called attention to the lamentable practice of some magistrates of sentencing old and habitual offenders to repeated short periods of imprisonment, which only enables them to recover their health and strength in order to renew with greater zest and vigour their evil practices. In our last year's Report we quoted a case of a woman who had been committed to prison in 1888, 34, and previously 146, times; yet during that year her longest sentence was one of fourteen days, and some were for twenty-four and forty-eight hours.

23. In order to exemplify the utter inefficiency of such sentences, either in a punitive or a deterrent light, we annex six further examples of such unfortunate cases.

24. It will be seen from the annexed Table what a large proportion of our prisoners are still sentenced to terms of imprisonment of 14 days and under, being for this year 66·5 per cent. of the entire committals to the local prisons, whilst those sentenced to 6 months and upwards form only 2·8 per cent. of the entire numbers.

DURATION OF SENTENCES.	Number of Sentences.	Percentage, 1888-9.	Number of Sentences.	Percentage, 1888-90.

Industrial
Labour.

26. The annual reports of the Governors of the several Prisons will be found in the Appendix, pages 90-112, relating to the labour and different industries carried on in the prisons under their charge, also the profit resulting from such labour. We also submit a summary of the profits for the past two years, from which it will be seen that there is a decrease in those profits in this as compared with last year, but this is accounted for by the sum realized in the sale of stock and farm produce of Lusk Prison Farm having been included in the profits of last year, whereas there is no such item in this year's profits, owing to Lusk Prison having been given up.

27. The reduction in the number of prisoners during the past two years is another cause of the reduction in profits of labour.

28. In addition to this general decrease in numbers, there was a large number of convicts employed on prison buildings who would otherwise have been engaged on industries which would have resulted in cash profit.

New system of
Store Accounts

29. We have much pleasure in reporting that we have now introduced the new system of store accounts in all our Local and Convict Prisons, and, although this system has increased considerably the labour of the Stores and Manufacturing departments, it is found to work admirably, and we have no doubt that this statement will be confirmed by the Exchequer and Audit Department after the inspection which they are about to make in some of the Prisons.

30. Owing to the introduction of this system our return of profits from manufactured articles has also suffered considerably, as under the new rules we are not allowed to charge any profit on goods sold to Government Departments, which is the chief market for the produce of prison labour, and only 5 per cent. on articles sold to the public.

STATEMENT showing the Total Profit realized on the various descriptions of Industrial Labour carried on in the several Prisons during the years 1888-89 and 1889-90, respectively, viz:—

I.—1888-9.			
	£	s.	d.
Profits realized on manufactures,	3,611	19	2
Do do, farm and garden,	1,391	0	10
Total Profit on productive services,	4,933	0	0
Extra receipts,	447	15	8
Total amount payable to the Exchequer,	53,389	15	8

II.—1889-90.			
	£	s.	d.
Profits realized on manufactures,	4,575	4	4
Extra receipts,	315	7	6
Total amount payable to the Exchequer,	24,832	12	0

31. The details as regards the commitments of Juveniles to prisons will be found in the Appendix, Tables XV. to XVII., from which it will be seen that the total numbers committed this year are almost 200 less than in last year. Juvenile Offenders.

Year.	Number of Commitments of Juveniles.		
	Male.	Female.	Total.
1881-80,	496	80	570
1882-81,	504	87	591
1883-82,	547	149	696
1884-83,	748	77	825
1885-84,	618	174	792
1886-85,	742	93	835
1887-86,	825	134	959
1888-87,	903	179	1,082

32. The annexed Table demonstrates that the commitment of this class of prisoners has been for the last eight years considerably on the decline, which we look on with great satisfaction, for no matter what precautions are taken to keep juveniles apart from adult prisoners, the mere fact of a youth being committed to prison reflects on his or her character for the rest of their lives, and, in the case of girls, it is a stain which they seldom in this country recover, and which often drives them to utter ruin.

33. The attached Table shows the number of commitments for the last twelve years, from which it is satisfactory to observe that there is a reduction this year as compared with the three previous ones, but it is our painful duty again to observe on the enormous proportion of drunkards committed over all other offenders. (See Table I. in Appendix.)

Year.	Total No. of Commitments.	Year.	Total No. of Commitments.	No. of commitments to Prison.
1880-80,	80,830	1883-84,	35,721	
1881-81,	43,704	1884-85,	35,494	
1882-82,	40,770	1885-86,	41,088	
1883-83,	62,704	1886-87,	40,100	
1884-84,	39,504	1887-88,	41,352	
1885-85,	27,820	1888-89,	42,207	

34. This year out of the total commitments of 39,939, no less than 17,820 of these were for drunkenness, or nearly one-half of the entire numbers committed. Drunkenness.

35. Even these numbers do not, we are aware, fully represent the victims of this vice, for it is a recognised fact, that a vast amount of the more serious crime may be attributed to this cause, being committed by persons under its pernicious influence, or by those who are led to commit crime for the purpose of obtaining alcoholic drink. We cannot doubt, therefore, that any legislation restrictive of the use of alcohol by the class we are dealing with, would tend to sensibly reduce the amount of crime and the commitments to prison.

Numbers in
custody on the
first day of
each year.

36. From the preceding Table it is pleasing to observe how steadily the numbers in our Prisons have decreased during the period comprised in these tables.

37. We are, however, more specially concerned in the figures since the year 1878, when the Board took charge of the Prisons. The numbers during that time have from different, but chiefly political, causes, varied by a few hundred, but were lower in February last than at any time during the last twelve years, notwithstanding the troubled state of some parts of Ireland.

38. So much attention has been drawn to some proceedings in connection with prisoners committed under the Criminal Law and Procedure Act that it may be well to state here that on the 31st of March only 26 of these prisoners were in custody.

No. CONFINED IN BRIDEWELLS.

(Including Ennis Lock-up, opened in 1887.)

No. confined in Bridewells for last 49 years.

Years.	Years.	Years.

1863 . 21,053		

Commitment
to Bridewells.

39. From the above Table, relating to commitments to Bridewells, the like gradual and very large reduction in numbers committed will be observed.

40. In 1877 the numbers were 5,576, and this year they were so low as 2,574. The detail of these commitments will be found in the Appendix, Table XVIII. These minor places of detention, which numbered 95, when our Board was formed, have now been reduced to 18, and many of them are now only retained in isolated districts for the convenience of the police and to avoid the transmission of prisoners from distant places to the Local Prisons.

New Table.

41. In the Appendix, Tables VIII. to XII., will be found the usual Returns relating to medical matters and diseases of prisoners. Table IX. has been introduced for the first time this year.

Health of Local
prisoners.

42. The average daily number of prisoners in the Local Prisons during the year was 2,546; the number of deaths, excluding 2 executions, was 14, giving a death-rate of 5.5 per thousand on the daily average number in custody. The death-rate per thousand for the estimated population of the whole of Ireland during the same period was 18.5.

Mortality.

43. Appended is a table of mortality among prisoners for each year during the last eleven years:—

YEAR.	Daily Average Number of Prisoners.	No. of Deaths.	Rate per Thousand.
1880-80,	2,548	14	5.5
1881-81,	2,648	8	3.02
1882-82,	2,568	13	5.07
1883-83,	2,643	9	3.40
1884-84,	2,801	10	3.54
1885-85,	2,573	10	3.88
1886-86,	2,689	11	4.05
1887-87,	2,525	7	2.81
1888-88,	2,111	13	6.15
1889-89,	2,620	14	5.34
1879-80,	2,812	28	9.98

44. The causes of death during the past year will be found in Appendix, Table No. XI. in which it will be observed that 10 of the deaths were the result of diseases which originated before reception into prison. Of the 4 fatal diseases originating after reception the causes of death were:—Apoplexy, 1 case; meningitis, 1 case; and peritonitis, 2 cases.

Number
released on
medical
grounds.

45. During this year 80 prisoners have been released on medical grounds, an increase of 20 on the number of those released during the previous twelvemonth. Of these 80 cases 59, or almost three-fourths of the diseases, were reported as having originated before reception into prison; while 3 were doubtful. Particulars will be found in Appendix, Table X. pages 58-62

46. There has been a decrease in the number of cases of Insanity. insanity dealt with in Local Prisons during the past year. The total number has been 71; of these 10 were sane on committal, the mental condition of 1 was "weak," and 60 were insane at time of reception.

RETURN AS TO VISITING COMMITTEES, 1889-90.

Visiting
Committees.

Prisons.	Number of Meetings of Visiting Committee of each Prison for Year ended 31st March, 1890, at which a quorum was present. 47. From the annexed return of the number of visits paid by Visiting Committees to each prison we are happy to observe that in most of the gaols there was a very fair attendance throughout the year of these gentlemen, and in some districts the Board received most valuable assistance from the Committee as well as from its individual members. Doubtless in some cases members of the Visiting Committee chiefly interest themselves in the prisoners committed under the Criminal Law and Procedure Act, but others of the Visiting Committee devote much time and attention to the general duties of their office.

48. We regret to say that we are unable to report to your Excellency any increase in the numbers this year of Certified Prisoners' Aid Societies. The number of these societies is still confined to the four in Dublin and one in Belfast.

Prisoners' Aid
Societies.

49. Instances from time to time of great hardship and distress come to our notice in regard to discharged prisoners who are unable to procure labour or assistance. In Dublin by means of our agent for discharged prisoners we are able to procure employment for many prisoners who would otherwise be driven back to crime, but in the country there are no means, once a prisoner has exhausted his or her gratuity, of giving them a helping hand.

Londonderry
Prison.

50. Public attention having been recently drawn to the alleged unhealthy condition of Londonderry Prison it may not be out of place to show first what improvements have been effected since the care of this prison devolved upon the Board, and secondly what has been its sanitary state during the past year.

51. When it was given over to the Board in 1878 the drains were built with masonry, and had neither traps nor ventilators. The southern half of the Male Prison was ineffectively heated, and the northern not at all. The drinking water was taken from a well in the Prison, and proper bath accommodation was wanting. At once the Board took steps to remedy these defects. In that year £400 was spent upon the heating of the unheated half of the prison, and providing lights and bells. Altogether down to 1880 £2,557 has been spent upon improvements of a sanitary nature. The drainage has been reconstructed, pipes have been laid, intercepting traps fixed, ventilators erected, and flushing cisterns provided.

52. The privies have also been abolished; soil pipes placed outside the walls; 18 new water-closets erected; and the baths and sinks disconnected from drains. The use of the well water except for flushing purposes has been abandoned, only the city water entering the tank which supplies the various parts of the prison. Although the city water is considered to be of excellent quality a filter has been placed in the tank as an additional means of securing purity. As was before mentioned the northern half of the prison was heated, and also the reception block; while in the southern half a new heating boiler was erected. Bells and gas jets were provided where they had been wanting in more than half the cells. Additional windows have been opened in the corridors of the male prison; the exercise yards have been made more airy by the removal of dividing walls, and walls at the hospital were also removed so as to admit more air and light.

53. Twenty-three cells in the male prison have wooden floors, the rest are stone, and in the female prison 24 cell floors are wood.

54. The cells vary in size; in the male prison there are now 2 cells for misdemeanants of the first class, one containing 1,146 cubic feet, the other 2,153; also 182 cells of which 136 have a cubic capacity of 453 feet (save a very few with only 400) and the remaining 46 exceed the 453 feet in varying degrees. In the female prison there are 24 cells varying from 720 to 855 cubic feet, and 24 cells varying from 419 to 565, besides 2 of larger size (1,450 and 1,198 cubic feet). The size of most of the cells the Board are aware falls considerably short of the standard now recognized as desirable, and this matter as well as the small size of the air inlets and outlets has been pointed out by Major Beamish in his report. While the Board fully admit that were

the prison to be constructed anew, the average cubic measurement of the cells would be considerably enlarged, with ventilators adjusted to the most modern ideas, they cannot agree that practically the prisoners do not receive a sufficiently free access of fresh air under the existing conditions. It must be borne in mind that there is the advantage of one hour daily in the way of additional out-door exercise as compared with prisoners in English gaols, and that during the day the frequent opening of the cell doors must necessarily assimilate the air of the cell to that of the corridor. In this connection it may be useful to note that in some English prisons cubic space smaller than found anywhere in Ireland is not regarded as injurious to health if the other conditions of living are salutary. It may further be remarked that the great majority of the prisoners in Londonderry Gaol were committed for short sentences, and it is not contended that short-sentenced prisoners cannot be kept in perfect health in prisons with smaller cells than those now said to be generally necessary for long sentences. The number of persons committed to this prison for terms exceeding six months during the last three years has been 15, 12, and 32 respectively. Some of these were treated as first-class misdemeanants, and occupied cells containing 675 cubic feet; others were females placed in cells of 845 and 916 cubic feet. It is intended in the course of the coming year to do away with forty of the smaller cells, and thus increase the number of the larger. At the same time there is no reason whatever to believe that in any way has the health of a single prisoner suffered in this Prison either through insufficiency of cell space or of ventilation, or through the existence of any unsanitary condition.

55. The Board observe that lately an advantage was taken of an error in Major Beamish's report to reflect on the accommodation for the sick in hospital. The error referred to was a statement as to the size of these wards, viz., that in one of the wards in which are three beds the cubic capacity was 1,592 feet, and two other wards with four beds each had only 1,728 cubic feet each. It is uncertain how this mistake originated, but in reality the capacities of these wards are 4,932, 5,184, and 4,608 cubic feet respectively, thus showing that there is ample space even if the beds were all occupied. It may, however, be pointed out that the average number of prisoners in the whole hospital for the past five years has been only 1,038, so that the accommodation has been manifold more than what was requisite. So far from this prison being, as has been recently stated in the House of Commons, in an unsanitary condition, the Board are glad to record that the general health of the prisoners during a long series of years has been exceptionally good. For more than twenty years this prison has enjoyed an absolute and remarkable immunity from any serious outbreak of illness. During this lengthened period there has been no case of fever, or of any of the other principal zymotic diseases. During the last eleven years only six deaths have occurred in this prison, one of which

Londonderry
Prison.

was a sudden death after reception, and another a suicide. A result so favourable, considering the habits and histories of prisoners, could not be attained if this prison did not possess the great sanitary advantages of a good situation, a pure water supply, and excellent drainage, together with due care and supervision of the health of the inmates.

Clonmel
Prison.

56. At Clonmel Prison several improvements have lately been effected.

57. Twenty cells have been enlarged—ten of which now contain 1,181, and ten 1,229 cubic feet of space. The ventilation of these and of the cells in the A prison have been improved.

58. We have also undertaken the entire reconstruction and re-fitting of the Roman Catholic chapel. Four new baths are being erected, as those existing were found insufficient for the increased requirements of the present inmates. The old tread-wheel has been removed, and the pumps are now worked by a crank by which means hard labour is now carried out here. A new scullery has been erected, and the kitchen ventilation improved. We have now here two excellent cells for first-class misdemeanants containing each 1,181 cubic feet of space. Twenty-three new w.c.'s are being erected, with all modern improvements as regards ventilation, instead of the M'Farlane system, which has been condemned.

Kilkenny
Prison.

59. In Kilkenny Prison we have in progress the enlargement of the cell windows, by which means more light and better ventilation will be admitted into the cells. This is a heavy and expensive undertaking, but we expect that it will be finished before the end of this summer.

II.—CONVICT PRISONS.

Accommoda-
tion.

60. The accommodation afforded for the convict class on the 31st March, 1890, by the four Prisons appropriated to this purpose may be estimated at 712, viz. :—

Mountjoy, No. 1,	.	.	.	485
Maryborough,	.	.	.	116
Downpatrick,	.	.	.	55
Grangegorman,	.	.	.	56
Total,	.	.	.	712

Location.

61. No change in regard to the number or situation of the Convict Prisons has been made since last year. Our principal male convict prison—both for probationers and public works, or advanced classes, is at Mountjoy. Downpatrick is still used for a small class of troublesome prisoners. At Maryborough we have the invalids and the intermediate class, while at Grangegorman we keep apart from the Local prisons, the few female

convicts that now remain, being reduced to 30 on the 31st of last March, and to a still smaller number now.

62. At that date the male convicts only numbered 474, *i.e.*, 11 less than at the same date in 1889. Since the closing of Richmond Bridewell and the removal of its prisoners to Mountjoy No. 2 prison, all the convicts have been accommodated in No. 1 prison there, containing 485 cells. Hitherto we have been able to provide ample labour for all classes of convicts here. We have now almost ready for occupation 23 cottages for warders, built entirely by prison labour, outside the prison. We have also completed by the same means a large store which was much required, especially since the introduction of the new store regulations. These buildings, together with the large and commodious hospital and bake-house reflect much credit on all concerned.

Mountjoy
Prison.

63. We have also almost completed a new officers' mess-room and single officers' quarters at No. 2 Prison, and are about to convert the quarters till now occupied by these officers into additional cells, by which means we shall procure accommodation for sixty-three extra local prisoners, which at times is much required, and will thereby save the expense of transfers to other prisons. We have further in contemplation the erection outside the prison of more cottages for married warders, so that with the few convicts now available for public works we expect to be able to find ample employment for them for some years to come.

64. Since the erection of the bake-house at Mountjoy, where the bread is now baked for all the Dublin prisons, a considerable saving has been effected in the item of bread. Last year as compared with the price of bread outside there was a clear saving or profit to the public of £1,062 5s. 8d., or £2,811 9s. for the last three years, which has defrayed the expenses of the building over and over again.

65. The removal of the intermediate class to the invalid prison at Maryborough has been attended with the greatest success, as they are found most useful, their labour having been utilised this year in building a second block of warders' cottages, which is now inhabited. A saving of £72 16s. a year in the lodging allowance of eight warders is thus effected, besides which the comfort of these officers will be considerably increased, as they find it almost impossible to procure suitable lodgings in the town. We have also by the same class of prisoners remodelled and reconstructed two of the old blocks of the prison on the most modern principles, and can now accommodate here 70 prisoners. The water supply in this prison, which has been the cause of a great deal of anxiety and expense, is now reported to be of a good quality, and "to be remarkably free from organic matter, and may be safely drunk."

Maryborough
Prison.

66. The separate reports of the Governors of the different Convict Prisons in the Appendix give further details in reference to these Prisons.

The number of convicts in custody on 31st March, 1890, was:—

—	Males.	Females.	Total.
In Convict Prisons,	442	30	472
In Local Prisons,	2	—	2
Gross total of Convicts in Custody on 31st March, 1890,	444	30	474

The number of convicts sentenced to penal servitude during the year ending 31st March, 1890, was:—

—	Males.	Females.	Total.
5 years,	38	8	44
8 "	1	—	1
7 "	18	—	18
8 "	1	—	1
10 "	13	—	13
14 "	2	—	2
15 "	1	—	1
20 "	1	—	1
Life,	2	—	2
Gross Total sentenced during year,	77	6	83

Disposal of convicts during the year ending 31st March, 1890:—

—	Males.	Females.	Total.
Discharged from Prisons:—			
On Orders of Licence,	77	14	91
On Commutation of Sentence,	1	1	2
On Completion of Sentence,	7	4	11
	85	19	104

The Revocations and Forfeitures of Licences in Ireland during the year ended 31st March, 1890, were as follow:—

—	Males.	Females.	Total.
Forfeited or revoked for breach of conditions of Licence,	8	2	10
Forfeited or revoked in consequence of a conviction for other offences,	13	—	13
Gross Total,	21*	2	23

* Three of these were English Licence holders.

TABLE showing the number of Convicts in "Custody," "Convicted," and "Discharged," since the year 1854, inclusive.

In custody on January 1st.			Year.	Convicted.	No. Discharged.

466	46	512	1888-89	77	155
426	28	454	1889-90	83	104

* In addition to this number there were 345 convicts under detention in the county prisons, and several hundreds in Bermuda and Gibraltar, who were subsequently discharged in Ireland.

† To 31st March.

67. In the last of the foregoing tables the very remarkable diminution in the numbers of convicts in custody for the last twenty-four years is exemplified. It will be observed that during the last ten years the males have reduced in numbers by almost one-half, and the females by four-fifths. This satis-

Diminution in
No. of Convicts.

factory condition of things we attribute very much to the reformatory and deterrent influences caused by a more uniform system of discipline carried out during that time.

Health, &c., of
Convicts.

68. It will be seen from Table XXXIII., that there were only two deaths—one from acute diarrhoea, with senile debility, the other from angina pectoris—among convicts during the past year, representing a death-rate of 4·2 per thousand, a very low rate considering the class from which convicts are drawn.

69. Seven convicts were released during the year on medical grounds, and ten were transferred as insane to the Criminal Lunatic Asylum.

Select Class.

70. The class of first convictions of convicts—the “select class,” continues to give excellent results, for by this means the more depraved convicts are not allowed to associate with those who have not previously been convicted.

71. These prisoners are never in association with the ordinary class of convicts, either at work, in chapel, or elsewhere. Whilst the convicts are undergoing their first six months of separate confinement, every inquiry is made as to the antecedents of the first convictions, and those whose previous history is ascertained to be good are placed, after careful consideration, in the select class.

72. Care is also taken in the Local prisons to keep the first convictions quite apart, but as these prisoners pass their whole time in separation, contamination here is more difficult than in the convict prisons, where, after nine months, prisoners are entitled to association.

73. These classes consisted during the past year of the following numbers, viz. :—

In Mountjoy, 93, of whom 21 incurred punishment during the year.

At Maryborough, 21, of whom 2 were punished.

At Grangegorman, 11, of whom 1 was punished.

74. Owing to the great reduction in the number of female convicts, only three Roman Catholics have this year been released on licence and sent to Golden Bridge Refuge, and on 31st March last, only five female convicts were in that Institution. No Protestant female convict was sent on licence to the Shelter for Females in Harcourt-road, and only one remained there on the 31st March.

While this Report has been going through the Press, the Board received information from the Managers of the Shelter to the effect that they could not carry on the work of the Institution with Protestant inmates only, and they would in future be obliged to admit Roman Catholics also, and that they must

therefore forego the Government Grant. We at once communicated those facts to Government, and have received directions accordingly to exclude from our next year's estimates the Grant to the Shelter. For some years past the convicts sent to this institution have been so few that we do not consider any injury to the service will result from the severance of the connexion between it and the Prisons Department.

75. No alteration has been made as regard the Visitors to the several convict prisons since those appointed by your Excellency's predecessor last year, except that on the resignation of Mr. A. Sharman-Crawford, at Downpatrick, Major J. Blackwood-Price has been appointed in his place. Visitors of Convict Prisons.

76. In our two last Reports we have referred to a recommended revision in our convict dietary scales, and had hoped that a committee, such as was appointed some years ago, should again be called together for the revision of these dietaries which the recent alterations in the disposition of our convict system so urgently demand, and we still consider that the matter requires, and should receive, the early attention of the Executive. Dietary.

III.—REGISTRATION OF CRIMINALS.

77. In the Appendix will be found the usual statistical returns relating to the registration of criminals, brought down to the close of the year 1889-90.

78. It will be seen from the subjoined Table that the number of habitual criminals photographed and registered during the past year, under the provisions of the Act 39 & 40 Vic., c. 23, was 131, the lowest point yet reached in these returns, and that the total number so photographed and registered since 1869—the date of the first Habitual Criminals Act, 32 & 33 Vic., c. 90—amounts to 10,058, viz.:—

RETURN showing the Number of Habitual Criminals registered in:—

Year.	No.	Year.	No.
1870,	907	1st January, 1869, to 31st March,	
1871,	1,055	1869,	285
1872,	840	1871-2,	224
1873,	1,118	1872-3,	180
1874,	1,002	1873-4,	104
1875,	966	1874-5,	171
1876,	964	1875-6,	203
1877,	900	1876-7,	250
1878,	972	1877-8,	155
1879,	305	1878-9,	109
		1879-80,	131
		Total,	10,058

Alphabetical
Register.

79. A new edition of the "Alphabetical Register of Habitual Criminals," brought down to the end of the year 1889, has been prepared and issued for general use since the date of our last Report.

80. In our Third and Fourth Annual Reports we have fully explained the general scope and purpose of this compilation, as well as its great practical utility as an important aid to those engaged in the execution of the criminal law of the country.

81. The largest number of this class dealt with in any one of the twenty years included in this Table was, it will be observed, 1,118, in the year 1873, since which date there has been an almost continuous annual reduction observable in the returns up to the present time, when, as above shown, it has fallen to 131, or less than one-eighth of the number registered in 1873.

IV.—DEPARTMENTAL.

82. The only change that has taken place in the *personnel* of our department since our last year's Report has been that caused by Dr. G. Plunkett O'Farrell's appointment by your Excellency to the Inspectorship of Lunatic Asylums, and the filling up of his place on our Board by Dr. Stewart Woodhouse, one of the Medical Inspectors of the Local Government Board.

V.—APPENDIX.

83. We beg to refer to the Appendix for the several Tabular Returns, Official Reports and Circulars, &c., usually submitted with our Annual Reports.

We have the honour to be,

Your Excellency's obedient servants,

CHARLES F. BOURKE,

Chairman.

W. P. O'BRIEN,

Vice-Chairman.

STEWART WOODHOUSE, M.A., M.D.

APPENDIX
TO
TWELFTH REPORT OF THE GENERAL
PRISONS BOARD.

PART I.

CIRCULARS AND CIRCULAR MEMORANDA.

CIRCULARS AND CIRCULAR MEMORANDA.

CIRCULAR MEMO.

8th April, 1889.

To the Governors and other Officers in charge of H. M. Prisons.

The General Prisons Board desire that the attention of the officers of the prison under your charge should be drawn to Circular, No. 87, of 31st February, 1879, which requires that uniform shall be worn by officers both while on and off duty, and the Board direct that these instructions are to be strictly enforced in all cases.

The exemption by your special permission, contemplated in the circular, should, as a rule, be confined to cases where officers are going on general leave of absence.

By order,

F. W. D. MITCHELL, Secretary.

No. 358.

9th April, 1889.

To the Governors or other Officers in charge of H. M. Prisons.

Herewith are forwarded to you copies of New Rules in substitution for Rules now bearing the same numbers; viz. :—

Rule 18 of Special Rules for Untried Prisoners.

Rules 28, 35, 36, and 44 of General Rules for Prisoners.

You are hereby directed to give immediate effect to these New Rules, reporting to the Board the circumstances of each case in which the new regulations are applicable under Rules 18 and 28, and all exemptions of Male Prisoners under Rule 36.

CHARLES F. BOURKE, Chairman.

11th April, 1889.

The Governor,

Prison.

SIR,—Referring to Memo. of the 28th ultimo, I have to inform you that, in the event of prisoners not sentenced to hard labour refusing to work, you will call their attention to the latter part of section 16 of 19 and 20 Vic. cap. 68, and inform them that unless they are prepared to avail themselves of this privilege by paying the expense of their prison allowance of food, you are required to enforce labour by punishment, according to Rule.

Such punishment must, as in all other cases, be subject to the approval of the Medical Officer.

The payment referred to should, of course, be regulated by the actual cost of the food, according to the prisoner's classification, including hospital diet, when such is found necessary.

You will take care that the prisoner provides you, without delay, with funds for the regular and prompt payment of the cost of his prison allowance of food, in all cases where the prisoner elects to avail himself of this privilege.

I am, &c.,

CHARLES F. BOURKE, Chairman.

No. 359.

14th May, 1889.

To the Governors of H. M. Prisons.

Referring to Circular No. 272 of 11th March, 1884, and to the War Office letter of 27th February 1884, attached thereto, the General Prisons Board request that in all future cases of *soldiers who are discharged from the Army while undergoing a term of imprisonment awarded by Civil Power*, you will address applications for short remissions of sentences direct to the Under Secretary, Dublin Castle, instead of to the General Officer Commanding the District in which the Prison is situated, as provided by the above instructions issued in 1884.

By order,

F. W. D. MITCHELL, Secretary.

No. 360.

7,158.

20th June, 1889.

To the Governors (or other Officers in charge) of the several Local Prisons.

The General Prisons Board desire that when, under New Rule 28, permission is granted to prisoners to wear their own clothing, the prisoners should be distinctly informed that the Board will be in no way responsible either for keeping such clothing in a proper state of repair, or replacing it when worn out.

When submitting any application for such permission, the Governor and Medical Officer should be careful to report whether they are satisfied that an adequate supply of suitable inside clothing is also available for the prisoner's use—as it is to be clearly understood that no article of prison dress can be issued to any prisoner who wears his own clothing.

By order,

F. W. D. MITCHELL, Secretary.

CIRCULAR MEMO.

17th August, 1889.

To Governors, &c., of H. M. Prisons.

From a Return recently furnished to this Office by the several Governors of Local Prisons, the General Prisons Board observe that, in

some cases, though it has not frequently occurred, the prisoners have been either wholly or partially deprived of their usual period of daily outdoor exercise, owing to the state of the weather, and with reference to this, the Board desire to call your special attention to the power given to Governors under new Rule 44, as to the regulation of the times of exercise. In some of the very largest Prisons the Board observe, with satisfaction, that by vigilance and judicious arrangement in taking advantage of the intervals of dry weather, this deprivation has been extremely rare, and quite exceptional, and the Board are satisfied that, by the strict observance of the same precaution, a similar result can, without difficulty, be attained in every Prison.

Your most particular attention is therefore now called to this important subject.

By order, F. W. D. MITCHELL, Secretary.

CIRCULAR MEMORANDUM.

31st August, 1889.

To the Governors (or other Officers in charge) of Local Prisons.

With reference to Rules 13, for untried prisoners, 15, for first class misdemeanants, 7, for debtors, and 35 and 36, for convicted prisoners, the Board now direct that in future—inasmuch as great inconvenience has lately been caused by the different constructions put upon these Rules by Subordinate Officers—the hair or beard of *no prisoner* shall be cut until the matter has been referred to and decided by the Governor, or by his Deputy, or by the Medical Officer.

The aim of the Rules above referred to being, obviously, to confine the cutting of prisoners' hair and beards, in future, within the limit of what is deemed reasonably necessary for purposes of health and personal cleanliness, it is hardly necessary to point out that the Governor should in all cases presenting the slightest difficulty in this respect, make immediate reference to the Medical Officer, by whose opinion he will, of course, be guided in all such matters.

By order, F. W. D. MITCHELL.

11,086.

28th September, 1889.

CIRCULAR MEMORANDUM.

To the Governors (or other Officers in charge) of the several Larger Local Prisons.

The General Prisons Board direct that the washing of the private clothing of all prisoners who do not wear prison dress shall, in future, be done in the Prison.

By order, WM. LAMB.

9th October, 1889.

CIRCULAR MEMORANDUM.

To the Governors (or other Officers in charge) of the several Local Prisons.

The Rules and amended Rules for Local Prisons in Ireland having been reprinted in one book with index at end, the General Prisons Board desire that each Prison Officer be furnished with a copy.

I am therefore to request that you will send in a requisition for as many copies as you will require to supply each Officer of your Staff, and the Keeper of each Bridewell for which you may be accounting officer.

Each Officer will be held responsible by the Governor for the careful preservation of his copy, and for its production when demanded.

On the transfer of an officer to another prison, the Governor will see that he has in his possession each of the articles mentioned in Circular Memo. of 27th May, 1884; and, when an officer is about to leave the service, he will have such articles taken from him.

By order, WM. LAMB.

21,001/79.—11,529/89.

21st October, 1889.

CIRCULAR MEMORANDUM.

To the Governors (or other Officers in charge) of H. M. Prisons.

Having regard to the large proportion of married warders in the service, the General Prisons Board desire that you will again remind the single men that an officer, on marrying, does not thereby become entitled to lodging allowance; and that the Board will not, in future, grant this privilege where an increase in the number of married men would interfere with the requirements of the service.

The Board desire that this Circular be read to each unmarried warder (on parade) and to each new warder who joins the staff on appointment.

By order, F. W. D. MITCHELL, Secretary.

No. 361.

11th November, 1889.

To the Governors (or other Officers in charge) of H.M. Local Prisons.

With reference to General Rule No. 49, I am directed by the General Prisons Board to request that whenever a prisoner of any religious persuasion other than those of the paid chaplains, is committed to the Prison under your charge, you will communicate the fact of his (or her) committal, together with his religious denomination, to the nearest officiating Minister of such denomination in the District, who is to be at the same time informed that he can, by application to the Governor, obtain permission to visit the prisoner.

In every case where such permission is granted to any Minister you will please afford him every facility for visiting, and holding religious ministrations for any prisoner of his creed in the Prison.

I am also to remind you of the instructions in Circular of 31st August 1869, to the effect that prisoners who return themselves as "Protestant" are to be further asked to what particular denomination of Protestants they belong, and the result entered in the proper Prison Records.

Circular Memo. of 2nd February, 1888, addressed to the Governors of Prisons to which no Presbyterian Chaplain is attached, remains in force.

F. W. D. MITCHELL, Secretary.

1677.

CIRCULAR No. 363.

21st February, 1890.

To the Governors (or other Officers in charge) of the several Local Prisons and Bridewells.

With reference to instructions conveyed in Circular letters of 29th January, 1880, 27th February, 1885, and 6th March, 1886, respecting the committal of persons of unsound mind, the General Prisons Board now further direct that you will, in future, at once report to them the committal of persons in a very weak or critical state of health, and the committal of women very near their confinement.

In addition to other particulars and L. P. C. Sheet, the form used should contain an "Observation" column for the report of the Medical Officer.

By order,

F. W. D. MITCHELL, Secretary.

DOWNPATRICK CONVICT PRISON.

DOWN-
PATRICK
CONVICT
PRISON.*Chief
Warder's
Report.*

CHIEF WARDER'S REPORT.

H. M. Prison, Downpatrick.

2nd May, 1890.

SIR,—I have the honour to submit my annual report, with the usual statistics attached, for the year ended 31st March, 1890.

The number of convicts in custody on that date was thirty, four having been released on licence, one sent to the Invalid Prison at Maryboro', and two to Dundrum Lunatic Asylum, during the year.

The general conduct of the convicts has been very satisfactory, and therefore the punishments very few and light, except in one case, where it was necessary to reduce a convict to second probation for continued misconduct.

The conduct of the subordinate officers has been, in general, very satisfactory, except in the case of three, two of whom were called on to resign, and one dismissed the service for serious breach of rules; two officers were transferred to Mountjoy Prison, one to Maryboro', and three were received from Mountjoy, during the year, and the three vacancies that occurred were not filled up, thus reducing the staff by three officers.

The employments of the convicts have, as usual, consisted of shoe-making, tailoring, matmaking, woodcutting, stonebreaking, and garden work, and all work in connexion with the general repairs and requirements of the prison have been executed by convict labour.

School instruction is given each evening to such convicts as require it, and some have derived much benefit therefrom, and take great interest in self-improvement.

The library is also much used, and the books are kept in thorough repair by one of the convicts.

The new store arrangements continue to work well, and the store-keeper is exceedingly zealous and attentive.

The medical officer and chaplain have, as usual, been very attentive to their respective duties, and punctual in their attendance.

I certify that, to the best of my belief, the rules laid down for the government of the prison have been complied with, except in such cases as have been reported, or brought under the notice of the General Prisons Board.

I have, &c.,

A. D. McMANUS, C.W.

The Chairman, General Prisons Board.

Catholic
Chaplain's
Report.*

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Downpatrick Convict Prison,
30th April, 1890.

GENTLEMEN,—In submitting my annual report, I am happy to state that the satisfactory state of things existing in May last still continues. The prisoners have been uniformly punctual in attending to all their religious duties.

I have, &c.,

RICHARD STOREY.

The General Prisons Board.

*Medical
Officer's
Report.*

MEDICAL OFFICER'S REPORT.

H. M. Prison, Downpatrick,
12th May, 1890.

SIR,—I have to report that I consider the sanitary state of this prison to be satisfactory.

There has been nothing noteworthy in the class of cases I have had to treat except an epidemic of true influenza, from which all the prisoners, save six, suffered within a few weeks; they all, however, recovered completely.

Two prisoners have been transferred to the Dundrum Asylum:—One has exhibited symptoms of imbecility ever since his admission to this prison and slowly deteriorated, it being requisite to have him strictly watched.

Two, was a case of acute dangerous mania, arising suddenly, and exhibiting at once a train of symptoms which necessitated asylum treatment.

One prisoner was transferred to the invalid convict prison.

Several of the officers suffered from influenza at the same time as the prisoners; they have now quite recovered. There has been no death of either officer or prisoner during the year.

Your obedient servant,

JOHN K. MACONCHY.

The Chairman, General Prisons Board.

*Governor's
Report.*

GOVERNOR'S REPORT.

H. M. Prison, Maryborough,

1st May, 1890.

SIR,—I have the honour to present my report, together with the usual statistical returns, for the year ended 31st March, 1890.

The conduct of the subordinate officers has been generally good, and they have performed their duties on the whole most efficiently.

The Intermediate class prisoners, thirteen of whom were received during the year, were employed cultivating the land outside the prison, and building warders' cottages; their conduct, with the exception of one, was very satisfactory; they have worked industriously, and have proved a most useful class of prisoners here.

There were in confinement at the beginning of the year sixty-nine convicts—thirty were released on license, four transferred to Mountjoy Prison, two to Dundrum Asylum (one of these had been previously in Dundrum Asylum), and both were mentally deranged on reception here, and one died—received during the year thirty-three, making a total on the 31st March, 1890, of sixty-five.

The D block of building has been reconstructed on the most modern principle by removing centre wall from floor to ceiling, erecting wooden galleries on each floor, and removing the stone ones, flooring the cells, fitting up two padded cells, bath room, and three closets; this work was done by convict labour, and the whole is finished in a very satisfactory manner, and now leaves a building containing fifty-one cells available for the reception of any class of prisoners. Outside the prison the block of cottages recently erected has been completed, outhouses and boundary walls have been built, and are now ready to be occupied by married officers. The water-course running from Portrane through the county infirmary to the Dublin-road, a distance of over 305 yards, has been levelled, cleaned, and laid down with twelve-inch pipes, and covered in; this was done by prison labour.

The land is under cultivation; it yielded a very fair crop last year.

There is an abundant supply of water.

The conduct of the prisoners has been satisfactory.

There have been no escapes, suicides, nor attempts at such. One death occurred in the hospital during the past year.

Morning and evening school is carried on as usual by the schoolmaster; some of the prisoners have made good progress with their studies, especially the intermediate class, who appear most desirous to learn.

The chaplains have been regular and attentive in the performance of their duties, and the medical officers have been most zealous and attentive to the sick.

MARY-
BOROUGH
MALE
CONVICT
PRISON.

—
Governor's
Report.

I certify that the rules laid down for the government of the prison have, to the best of my knowledge and belief, been complied with, except in such cases as were brought under the notice of the General Prisons Board.

The Visiting Committee visited the prison on the 10th April, 1889, 15th May, 12th June, 10th July, 11th September, 9th October, 13th November, 11th December; 8th January, 1890, 12th February, and 12th March.

I have, &c.,

ARTHUR C. BULKELEY,
Governor.

To the Chairman,
General Prisons Board.

Protestant
Episcopal-
ian
Chaplain's
Report.

PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

The Rectory, Maryborough,
6th May, 1890.

SIR,—During the past year the men have been, without an exception, apparently attentive to the services, and seemed at all times glad to receive my visits; doubtless a chaplain sees prisoners for the most part at their best. Experience confirms me in the conviction expressed in a former report, that shorter terms of imprisonment and severer discipline would be more efficacious in deterring from crime. Men undergoing a long term of imprisonment become reconciled in a remarkable manner to prison life, gradually more unfitted for active employment in the outside world, and when released, carry with them no vivid remembrance of punishment suffered while in prison.

From all the intern officers of the prison I received every assistance in their power in the discharge of my duties.

I have, &c.,

EDMUND L. EVES.

The Chairman, General Prisons Board.

Roman
Catholic
Chaplain's
Report.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Maryborough, April 28th, 1890.

DEAR SIR,—I have not anything in particular to report about our prison during the past year. Considering the class of criminals we have—invalids in body or mind—I think their conduct on the whole very satisfactory. There are two Irish-speaking prisoners here who have not approached the sacraments for some time. There is not any priest in this diocese, I regret to say, who speaks the Irish. I did procure the services of a priest from the adjoining diocese of Ossory, but he has been removed to another district and cannot attend. I should suggest that these men should be removed to some prison in the north or west of Ireland where the clergymen usually speak Irish. If you do not wish to adopt this course, I should require an addition to our

present salary of £20 to enable me to bring a clergyman from another diocese a few times each year.

I have to renew my acknowledgments to the governor and officials of the prison for their kind and courteous attentions to the Catholic chaplains during the past year.

I remain, &c.,

A. PHELAN, P.P.

MARYBOROUGH
MALE
CONVICT
PRISON.

[Copy LETTER from the GENERAL PRISONS BOARD in reference to Report above.

General Prisons Board, Dublin Castle,

16th May, 1890.

REVEREND SIR,—With reference to your report to the Board for the past year, in which you recommend the removal of certain Irish-speaking convicts to some prison in the north or west, I am directed to inform you that, as these men are convicts, there is no prison in those parts of the country to which they could be sent.

As you are aware there is an Irish-speaking warder in Maryboro' prison, and the Board have no objection to your introducing an Irish-speaking Roman Catholic clergyman as your assistant (under the rules) to administer the sacraments to these prisoners, but it is unnecessary to inform you that the Board have no funds at their disposal for paying a second Roman Catholic chaplain at Maryboro' prison.

(Signed), F. W. D. MITCHELL, Secretary.]

Rev. A. Phelan, P.P., Roman Catholic Chaplain,
Maryboro' Prison.

[NOTE.—These prisoners have since been instructed in English and will very soon be fully able to speak and understand it.]

MEDICAL OFFICERS' REPORT.

Medical
Officers'
Report.

Maryborough Invalid Prison,
May, 1890.

SIR,—We have the honour to submit the annual report on the sanitary condition of Maryborough Prison, and the statistical returns bearing on the health of the subordinate officers and convicts.

There were treated during the year for various ordinary ailments 26 of the prison staff, 11 of whom at their own homes, 13 in prison quarters, and 2 in the prison hospital.

There was a daily average of 50 convicts receiving hospital treatment during the year for diseases, as shown in Form "8"; one died, and two were removed to Dundrum Criminal Lunatic Asylum.

The sanitary arrangements continue unaltered, and appear satisfactory.

The Governor continues to afford us every assistance in the management of the sick.

We have, &c.,

MAURICE O'CONNELL, Surgeon, &c., Res. Med. Officer.
D. JACOB, M.D., F.R.C.S.I., Consulting and Visiting
Physician.

To the Chairman,
General Prisons Board.

MOUNTJOY
CONVICT
PRISON,
—
Governor's
Report.

MOUNTJOY CONVICT PRISON.

GOVERNOR'S REPORT.

Mountjoy Prison,
28th April, 1890.

SIR,—I have the honour to report, for the year ended 31st March, 1890, on the Convict portion of Mountjoy Prison.

The conduct of the subordinate officers has been generally good, and the majority have exhibited a praiseworthy desire to give satisfaction in the performance of their duties. I have been efficiently and zealously assisted in the management of the prison by the Deputy-Governor and Chief Warder.

The convicts have been well-behaved and industrious generally during the year, strict discipline has been maintained, and hard labour enforced.

The employments of the convicts have been the same as detailed in last report. The twenty-three houses for married warders, erected by convict labour, in a field outside the prison, are fast approaching completion, and will, I expect, be ready for occupation early in the ensuing summer. The new store building has been completed, fitted up, and occupied during the year. A building to the north of the local prison has been converted, by convict labour, into comfortable and commodious quarters for the local warders, and will soon be fit for occupation, when the wing of the local prison in which these warders are located at present will be converted into cells to increase the accommodation for local prisoners which has been found insufficient. The conversion of this wing into cells will provide ample work for another year for all the convicts not employed at necessary trades and manufactures.

The baking continues to be done here for all the Dublin prisons, and bread of excellent quality is produced at a much lower rate than it could be purchased for.

The chaplains' attention to their respective congregations continues unabated.

The school arrangements described in last report remain unchanged. They work well, and under them considerable progress in education has been made by many convicts who were illiterate or nearly so when they entered prison. The teachers have been attentive and diligent.

I certify that, to the best of my knowledge and belief, the rules laid down for the government of the prison have been adhered to, except in such instances as were brought to the notice of the General Prisons Board.

I have, &c.,

GEO. SHEEHAN, Governor.

The Chairman, General Prisons Board.

PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

H. M. Prison, Mountjoy,

May 3rd, 1890.

MOUNTJOY
CONVICT
PRISON.*Protestant
Episco-
palian
Chaplain's
Report.*

SIR,—During the past year I have endeavoured to make myself, as far as possible, personally acquainted with the convicts who attend my ministrations, with a view of advising them as regards their conduct both during and subsequent to their confinement in prison. They have generally evinced a disposition to be guided by the chaplain, as in cases where punishment has been inflicted for violation of discipline—and these have not been numerous—they have displayed willingness to acknowledge their fault, with a promise of obedience in future.

The library, which, along with a varied collection of works of secular literature, possesses a good assortment of devotional books, constitutes, as it seems to me, a valuable element in the mental and, I trust, religious improvement of the convicts. Not only has a complete catalogue been drawn up, but it has been fixed in a conspicuous position on each gallery, so as to admit of being easily read by the prisoners. This arrangement has greatly facilitated the distribution of the volumes.

In my Report for 1889 I spoke of what I found the large and commodious hospital of the prison to be to me in the discharge of my visiting duties, and since then I have been fully confirmed in the opinion which I gave expression to. The infirmary, with its officers' ward, was quite equal to the strain of an exceptional season of epidemic illness which ushered in the new year. Some cases came under my care of a serious type where a fatal termination, I believe, was, under God, averted by constant medical skill, supplemented by the assiduity of the hospital warders. A gratifying feature is the spirit of sympathy and mutual benevolence that may be witnessed amongst all the patients, who, in trying circumstances, certainly try to carry out the golden law—"Bear ye one another's burdens." I consider the infirmary in Mountjoy Prison to be a department of management which cannot fail to exercise a moral influence over the convicts, and serves as an efficient help to the chaplain in the fulfilment of his sacred calling.

In conclusion, I can report favourably of the demeanour of the convicts during Divine service throughout the past twelve months, and I have to express my obligation for ready co-operation on the part of the governor and deputy-governor, and those acting under them.

I have, &c.,

JOHN H. MACMAHON, M.A., LL.D.,
Protestant Chaplain.

To the Chairman, General Prisons Board.

ROMAN CATHOLIC CHAPLAINS' REPORT.

Mountjoy Prison,

May, 1890.

*Roman
Catholic
Chaplain's
Report.*

SIR,—In submitting our report for the year ended March, 1890, we feel great pleasure in stating that the conduct of the prisoners under

Mountjoy
Convict
Prison.

our care was, on the whole, very satisfactory. The vast majority of them were edifying in their attention to their religious duties.

We do not deem it necessary to do more than call attention to what we stated in our last annual report on the subject of classification, namely, that some scheme should, if possible, be adopted for isolating depraved habitual criminals, who exercise so baneful an influence on their associates.

We beg to thank the Governor and the other officers for their great courtesy and kindly aid in the discharge of our duties.

We have, &c.,

M. WALSH, R.C.C.
T. O'DONNELL, R.C.C.

The Chairman, General Prisons Board.

[NOTE.—It is presumed the Roman Catholic Chaplains must be aware that every possible means, in accordance with prison rules, is adopted for the separation of the better class of prisoners from the more depraved, and that a "select class" exists, composed of first convictions, and of men of previous good character, who, both at work, at exercise, in chapel, and in hospital, are kept entirely apart from the others.

There is also, under the rules, a class of ill-conducted prisoners, viz., "second probation" prisoners, who are kept entirely by themselves, and are prevented from associating with others, or even with one another.

Should the chaplains at any time feel it their duty to call the Board's attention to any particular case, such as those referred to in a general way in this report, it is to be hoped that they will do so, but hitherto the Board have not received any communication or recommendation from them in this respect.]

Presby-
terian
Chaplain's
Report.

PRESBYTERIAN CHAPLAIN'S REPORT.

Mountjoy Convict Prison,
April 10, 1890.

SIR,—I have to report that fifty-two Sabbath services, and one hundred and four week-day services, have been held during the past year.

I have but few complaints to make of the conduct of the prisoners so far as their attention to religious instruction is concerned. Their general conduct in church, and the manifest interest they take in the exercises, whether at Divine service or the week-day lectures, is very gratifying to me. Indeed, with but two or three exceptions, all have been well conducted, respectful, and teachable.

So far as I can observe, the prison continues to be conducted as usual in the most unexceptionable manner. All the officers of every grade are diligent, watchful, and kind. From all with whom I have any official relation, from the esteemed and efficient Governor to the most recently appointed warder, I receive such aid as without which I could not so satisfactorily discharge my duties.

I am, &c.,

S. G. MORRISON,
Presbyterian Chaplain.

The Chairman, Govt. Prisons Board.

MEDICAL OFFICER'S REPORT.

Mountjoy Convict Prison,

24th April, 1890.

MOUNTJOY
CONVICT
PRISON.*Medical
Officer's
Report.*

SIR,—I have the honour to submit the annual report on the state of health of the officers and prisoners, and on the general sanitary condition of this Prison, with the usual medical statistics, for the year ended 31st March last.

There were sixty-four warders admitted into hospital during the year, chiefly for influenza, febricula, rheumatism, and bronchitis. One warder was discharged the service on medical grounds. There was no death.

During the year there were 163 convicts admitted into hospital for the diseases specified in the "Medical Statistical Table," the principal being influenza, bronchitis, febricula, dyspepsia, and rheumatism. Of the convicts admitted into hospital, three were released from prison on medical grounds, seven were transferred to the Invalid Prison, four were removed to the Criminal Lunatic Asylum, and one died.

Influenza—of a severe type in many instances—was prevalent in this Prison during the month of January. Thirty convicts and fifteen warders were admitted into hospital, while several prisoners were treated in their cells, and a few warders in their quarters, for mild attacks of that disease.

I am pleased to say that in all other respects the general health of the warders and convicts has been good, and the sanitary condition of the Prison has been most satisfactory.

I have, &c.,

P. O'KEEFE, M.D., Medical Officer.

The Chairman, General Prisons Board.

GRANGEGORMAN
FEMALE
CONVICT
PRISON.

GRANGEGORMAN FEMALE CONVICT PRISON.

[The Superintendent having retired from the service on pension on the 15th January, 1890, there is no report from her for the past year].

*Protestant
Episco-
palian
Chaplain's
Report.*

PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

H. M. Prison, Grangegorman,

May 9th, 1890.

SIR,—In submitting my annual report, I beg to say that I have had only three convict prisoners under my charge during the past year. Of these, one, who has since been discharged, was remarkably intelligent and conducted herself well throughout her entire term of imprisonment; the others are very ignorant, and although well-behaved and attentive to instruction, make no progress.

The general discipline has in my opinion been well maintained, and I believe the sanitary condition of the prison buildings is excellent.

From all the officers and matrons I have received unvarying attention and assistance in the discharge of my duties as Chaplain.

I remain yours faithfully,

HENRY HOGAN, Chaplain to H. M. Prison,
Grangegorman.

To the Chairman of the General Prisons Board.

*Roman
Catholic
Chaplain's
Report.*

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Grangegorman Convict Prison,
April 26th, 1890.

SIR,—In submitting my annual report for the year ended March 31st, I feel pleasure in stating that the Roman Catholic convicts were, as usual, most attentive to their religious duties during the year.

I have, &c.,

JAMES ANDERSON, R. C. Chaplain.

To the Chairman, General Prisons Board.

PRESBYTERIAN CHAPLAIN'S REPORT.

Grangegorman Convict Prison,
March 31st, 1890.

GRANGEGORMAN
FEMALE
CONVICT
PRISON.

SIR,—My report is very brief. I have had but one convict under my care during the past year. I have, of course, attended regularly, and performed all the duties pertaining to my office.

Presbyterian
Chaplain's
Report.

Every assistance, as usual, is given me by all the officers and matrons, and nothing can be more satisfactory than the way in which the prison is conducted.

I am, &c.,

S. G. MORRISON, Presbyterian Chaplain.

The Hon. Charles Bourke, C.B., &c.

MEDICAL OFFICER'S REPORT.

Convict Prison, Grangegorman,
26th April, 1890.

Medical
Officer's
Report.

SIR,—In submitting the usual statement for the year ending 31st March, I have to report that the sanitary condition continues to be satisfactory.

No death occurred among the convicts. The daily average number of sick in hospital continues small.

I have, &c.,

H. MINCHIN.

The Chairman, General Prisons Board.

TABLE XXXVIII.—WORKS OF RECONSTRUCTION, REPAIRS, &c., during year ended 31st March, 1890.

CONVICT PRISONS.

(A.)—By Contract or other than Prison Labour.

PRISONS.	Detail of Works.
Maryborough, . . .	Electric bells twice repaired in A and B prison; also circulating boiler in prisoners' kitchen; repaired boiler in laundry, also boiler to prisoners' kitchen.
Grangegorman, . . .	See Return from Grangegorman Local Prison.

(B.)—By Convict Labour.

Downpatrick, . . .	Cells, corridor and hall in convict section whitewashed; baths, laundry, and jambs of cell doors painted; officers' rooms and hospital whitened and painted; heating-furnace boiler re-set; entrance and new door made in manufacture store; roof of Chief Warder's quarters painted and gutters repaired; ventilating shafts leading from cells and corridors, &c., cleaned and repaired, and all other necessary work of repairs executed; military guard-room whitewashed and painted.
Maryborough, . . .	Plastered with cement the outside of four warders' cottages in course of erection; plastered the inside of said cottages; built four sculleries and porches; built walls dividing yards, also four closets, four coal-becoms, and four ash-pits; removed the centre wall, from ground to ceiling, in D prison; built two side walls of passage, and plastered same; lathed and plastered roof over hall; removed the old stone galleries, and erected timber ones, supported by iron brackets; altered and made good seventeen cells, and fitted up bath-room and flagged the hall; re-set old boiler, and placed in new gaspipes; fitted up office for Chief Warder at end of this prison; built and fitted up a new closet in A prison-yard; divided the A and B yards with a concrete wall and iron railings, 108 feet long by 7 feet high; made with concrete a surface water drain round the A and B yards; made, with 12-inch pipe, a new water course, 305 yards long, through the County Infirmary grounds up to road outside prison; repaired furnaces, and reset four boilers in kitchen; twice repaired hot air engine; put up new door of workshop, near laundry, and placed a new stove in said shop.

TABLE XXXVIII.—WORKS OF RECONSTRUCTION, REPAIRS, &c.—continued.

Persons.	Detail of Works.
Meantjoy, . . .	<p>Joinery work of 23 new cottages outside No. 1 prison, continued, plastering, gasfitting, and plumbing finished, painting commenced, and locks, &c., being put on; new stores, including shelving, office fixtures, &c., continued and completed; putting additional ventilation stacks to branch sewers, and extending branches to suit do.; cleaning and painting entrance gates, doors, &c., and passage to central hall, guard-room, &c.; cleaning, papering, and pointing two rooms and landing in Chief Warder's quarters; cleaning, painting, and whitening basement of Governor's house, and papering dining-rooms, staircase, passages, &c.; removing old heating pipes in military quarters; setting new kitchen range and two barnack-room ranges in guard-rooms; flagging old kitchen, and fitting with shelves for pantry; fitting up new lavatory for men, and new w.c. in officers' quarters; putting up arm racks, altering gasfittings, and putting additional ventilation in picket rooms and picket but; repairing and renewing scurry boxes; setting new boiler for laundry and drying closet, and connecting with heating pipes; new photograph house built; repairs to roof, including skylights, &c.; setting boiler in basketmakers' workshop, and setting new saddle boiler for heating baths to replace an old one; repairs to large chimney stacks, including scaffolding, resetting cornice and upper courses, sinking chain bars in principal bed of cornice, brick lining inside for six feet deep, and pointing stonework to level of roof or about forty feet from top of chimney; relining fireboxes, and tiling ovens in bakery; removing about thirty yards of old underground water pipe, and replacing with new pipe; repairing furnaces of heating boilers, and renewing furnace bars, firelocks, &c.; general repairs to gasfitting, plumbing, locks, bolts, &c.; repairing and altering roads, &c., at new stores and photograph house; cleaning and lime-whitening walls and corridors of prison, and painting wood and iron work, &c.; preparing and setting stones to mark bounds of prison property.</p>
Grangegorman, . . .	See Return from Grangegorman Local Prison.
